Createspace Independent Publishing Platform, United States, 2014. Paperback. Condition: New. Language: English. Brand new Book. Rain can be viewed as a dreary sad day or a day that you are alive to continue to find God's blessing. Life is more enjoyable when we pick the right perspective and seek God's purpose. Faith can move mountains and it's your faith that clears a pathway to make you whole. I believe there is no disappointment or devastating event in our lives that can't be healed. I will teach you how to do a mental delete and reset after disappointment, personal fears or failed relationships. When I began to heal I realized we all have the right to have an emotional life that's filled with abundant peace. No human should live in the dark shadow of an abusive person. I express this truth in the book but you will not find male bashing in this book. You will discover the power of true forgiveness and how vital it is to enhance your healing. You will be refreshed as you read and embark on your personal healing journey. There are sections for the reader to journal fears they want to face and conquer them. I write about being protected from abuse, that the abuser is not a friend (never be lured back to an abusive relationship for your physical safety and emotional tranquility). I write about being alone and the valuable power of alone time. That topic is called "Alone at last" I express the joy, strength and self validation that came to me during this time.
